

1. Will the ICT Unit be responsible warehousing the equipment on delivery?

Answer: The Ministry of Education will be responsible for warehousing the equipment.

2. In the event this responsibility falls to the vendor, what are the storage requirements?

- Location
- Security
- Transportation
- Delivery Schedule

Answer: Not applicable

3. Where will the testing area for the equipment be?

- The final point of delivery
- Storage area
- Separate testing site

Answer: At the Ministry of Education

4. Will the seventeen (17) servers listed as “Education Servers” be located in same space as the other servers?

Answer: The education servers will be located at various high schools whilst the other servers will be located at the Reform Management Unit of the Establishment, Personnel & Training Department.

5. According to the Project ICT Development Programme – Supply of Equipment - EuropeAid/127217/D/SUP/DM, please let us know if also the installation of the products is required

Answer: Installation is only required for Lots 3 and 6 as indicated in Annex II & III: Technical Specifications & Technical Offer.

6. For the Technical offer, I should make 1 offer for each lot individually (10 portfolio in total for the ten lots, excluding copies) or 1 for the total of lots for which we are going to make the offer (Just 1 portfolio, excluding copies)?

Answer: Yes, the offer for each lot should be done separately given the evaluation is done lot by lot. As per the ‘Instructions to tenderers’ please note:

Lots

- The tenderer may submit a tender for one lot only, several or all of the lots.
- Each lot will form a separate contract and the quantities indicated for different lots will be indivisible. The tenderer must offer the whole of the quantity or quantities indicated for each lot. Under no circumstances must tenders for part of the quantities required be taken into consideration. If the tenderer is awarded more than one lot, a single contract may be concluded covering all those lots.
- A tenderer may include in his tender the overall discount he would grant in the event of some or all of the lots for which he has submitted a tender being awarded. The discount should be clearly indicated for each lot in such a way that it can be announced during the public tender opening session.
- Contracts will be awarded lot by lot, but the Contracting Authority may select the most favourable overall solution after taking account of any discounts offered.

7. Could I know the \$ amount forecasted for this project?

Answer: No

8. What type of plug is needed? I mean, type D, G or another one?

Answer: With regards to power outlet/receptacle type, 240V 3 pin (British type standard) is needed.

9. Lot 3 says: "Compatible 6 Microsoft Office 2007 licences". What that mean? To acquire licenses? Compatibility?

Answer: This was an error. This should read "Compatible with Microsoft 2003 licences". This does not mean that these licences must be acquired.
